Identify hidden expertise in the enterprises and use it better

DO YOU KNOW THIS?

Your company has its own expert network, but many of your employees

- often do not even know which company expertise is available,
- where and how they can interrogate them when they do,
- and accordingly often unnecessary expertise gets bought in,
- lists of experts are often time-consuming to maintain and the existing expert knowledge cannot be sufficiently documented,
- when an employee leaves the company, the expert knowledge is often even lost completely.

SPACE800X LUDGER'S WORLD

Identify hidden expertise in the enterprises and use it better

SPACE800X LUDGER'S WORLD is a software (to complement the company intranet) that allows experts in your company to offer their services in a works council-compliant manner, so that they can afterwards easily be found and called upon by your colleagues to support important projects.

In the future, all existing in-house skills in your company will be clearly displayed, documented and no longer needlessly purchased externally - this saves a lot of time and money.

SPACE800X LUDGER'S WORLD

What our Software can do

- Our software connects international employees from different departments and locations with the relevant experts for your projects, who have the necessary expertise and hard skills
- A faster and more economical expert-, expertise-, project-, documentation- and event-management is possible.
- More focused use of internal HR potential
- Location-specific shortage of skilled employees gets compensated
- Use of synergy effects by the implementation of education- and advanced training-programs worldwide and/or groupwide -especially online trainings.
- More specific employee marketing
- Group-wide procurement of Group-owned/bought-in technologies (hardware, apps, software etc.)

SPACE800X.com

And what if an in-house expertise is missing?

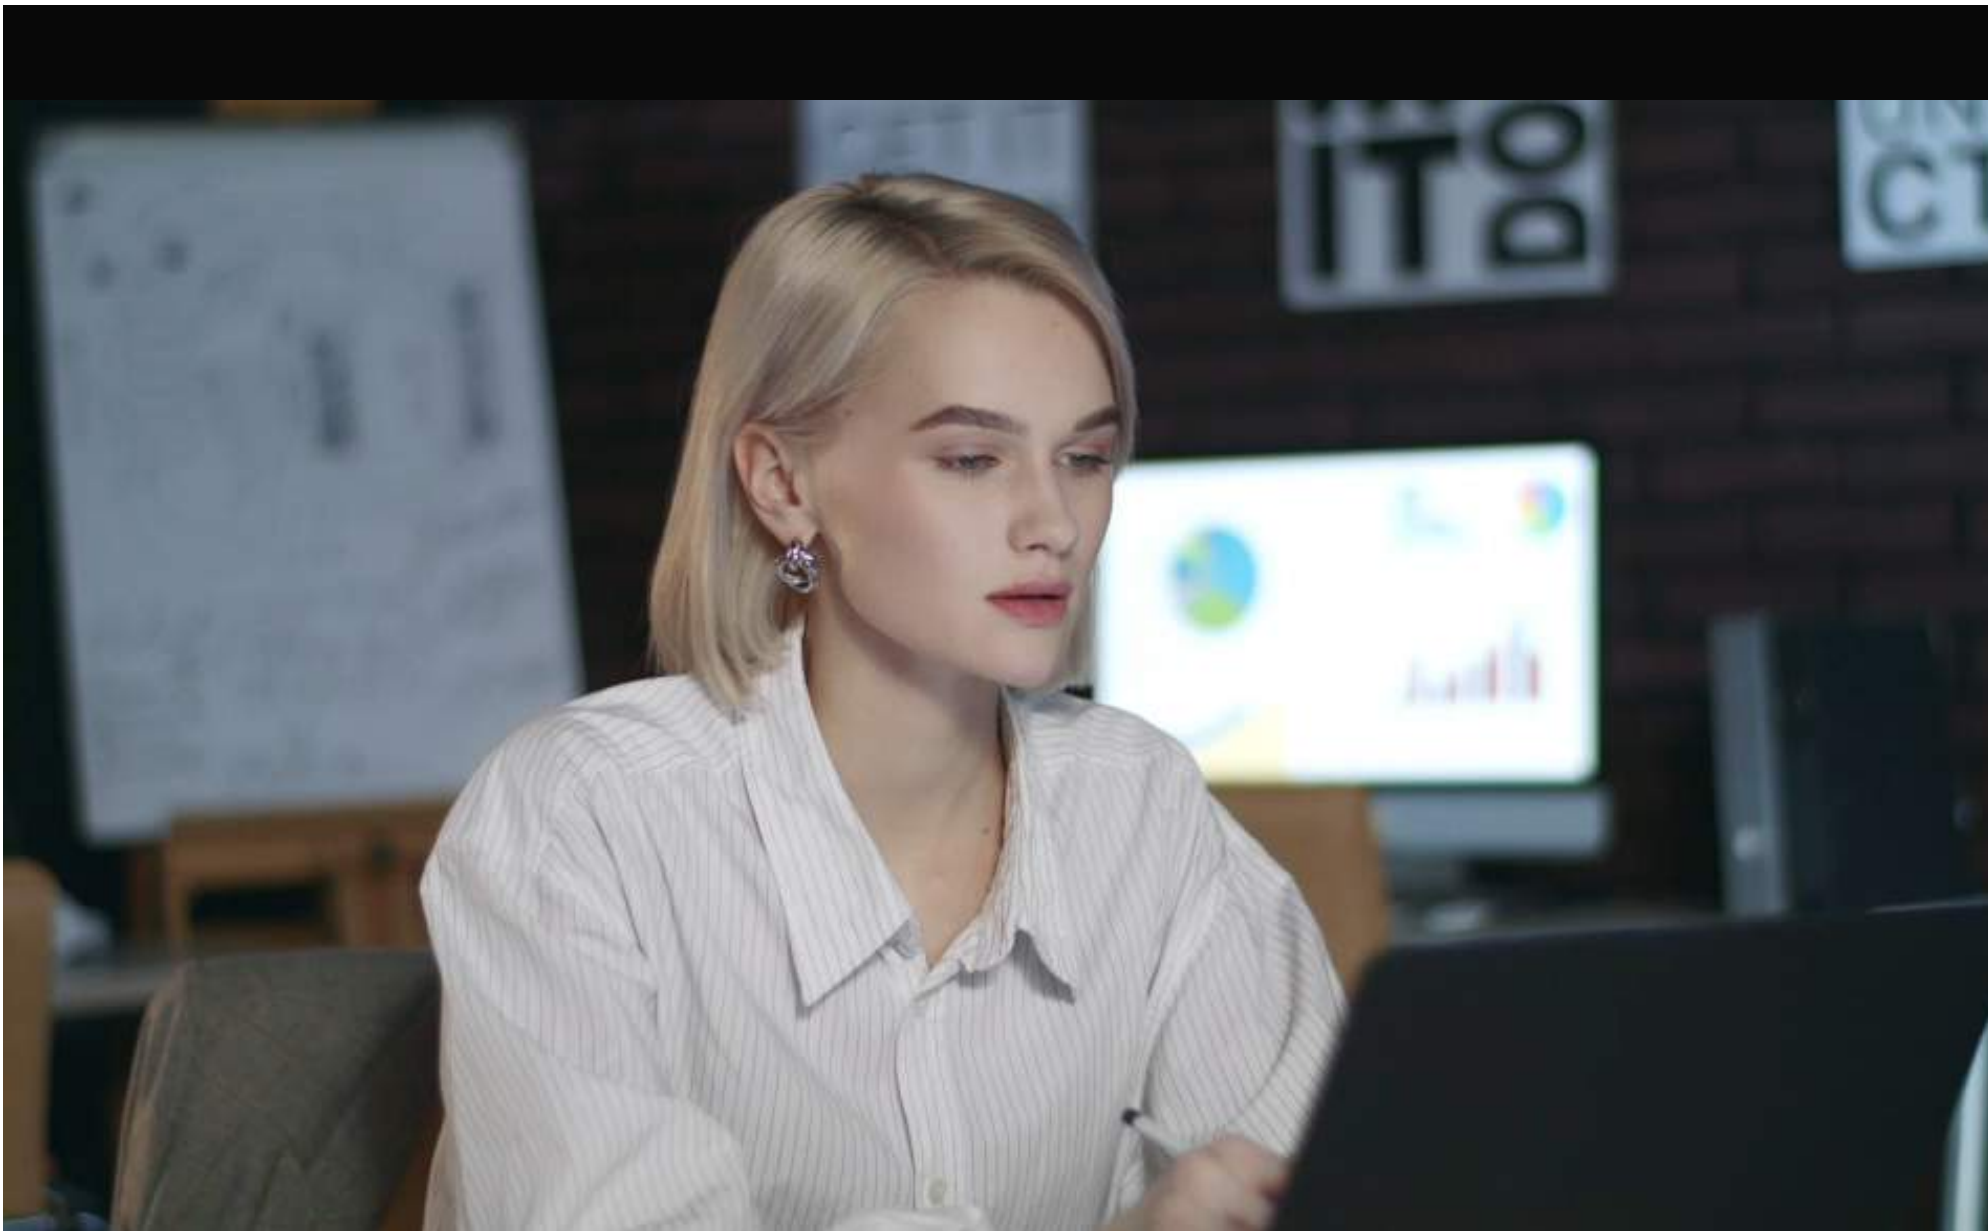

Then all companies using SPACE800X LITTLE WORLD can access the extensive expert database of SPACE800X.com.

We only include in this database selected, internationally operating top service providers, which have been checked by us in advance and offer you tailor-made service packages.

PLUS: With SPACE800X.com the risk of fake self-employment (freelancer) is eliminated. In addition, your company can offer its own expertise and products for sale throughout Europe if desired.
